

Redhaven Peach

Prunus persica sp.

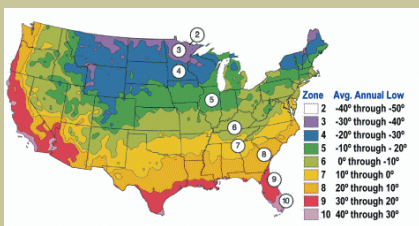

Medium to large. Red blushed yellow skin. Firm, sweet, yellow flesh. Good for cold climates. It became the **world's #1 commercial peach** because it was the first peach of the season used for canning.

Freestone when fully ripe.

Requires 900 hours of chill below 45°F.

Ripens Late June.

Cold hardy to U.S.D.A. Zone 5.
